

Urgent Appeal: Your Data is Critical to Reshaping Our Industry

Dear Colleagues,

The **Namibian Private Practitioners Forum (NPPF)** urgently calls on **at least 100 more practitioners** from all disciplines to contribute to our **Cost Study Initiative**. Your participation is vital in building a **scientific, practitioner-driven alternative** to the outdated systems currently governing private healthcare.

Why Act Now?

Despite years of submissions and consultations with NAMAf, **no meaningful change** has materialized. Our input has been consistently disregarded. It's clear that if we want a system that reflects reality, **we must lead the change** ourselves.

What We Believe:

1. Private healthcare must be governed by a **Medical Control Board**, not fund administrators.
2. The **NAMAf Benchmark Tariff** is outdated, unscientific, and no longer reflects actual practice costs.
3. Reform must be led by **HCPs and patients**, not solely by NAMAf, NAMFISA, or ministries.
4. We need a **credible, data-driven costing model** to guide advocacy and policy change.
5. Progress is already underway toward creating this **independent framework**.
6. Discussions with the Ministries of Finance and Health are in progress to ensure **inclusive governance**.

What We Need From You:

Please complete the survey forms by submitting:

- **Income and expense details** (including AFS or equivalent if available)
- **List of equipment/furnishings with replacement value and age**

 **All submissions will be treated with strict confidentiality.**

A majority of HCPs have voiced their discontent with the current system. This is our moment to act. With your support, we can **establish a fair, sustainable, and practitioner-led model** for private healthcare in Namibia.

Let us unite for our future—and for the patients we serve.

Stand with NPPF. Be the change.

Sincerely,

The Namibian Private Practitioners Forum (NPPF)
